024000
Slow-release chlorine that controls auto-and cross-contamination in treatment water. Use approximately 1 gram of Chlorazene per one gallon of water.

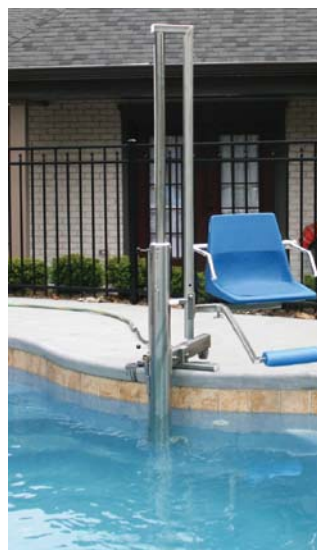

024017
Adding a small amount of this concentrated anti-foam emulsion before or during treatment controls excess foam. Non-toxic and non-irritating.

071321
Q-zene additives are packages with 30% less delivery film which assures complete dissolution, perfect for control without sacrificing water clarity.

024006
This concentrated, multi-purpose germicidal detergent and deodorant is effective against a broad spectrum of pathogenic bacteria, fungi and viruses.

070113
Certified to meet the 2010 Standards for Accessible Design as well as the requirements for the ADA, ABA, and the CBC

070121
Meets the 2010 Standards for Accessible Design for ADA regulations
